### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the applicants' representative, Dr. Lee Crews (Reg. No. 43,567) on March 18, 2005.

The application has been amended as follows:

1. Cancel claims 35-37; and
2. Claim 15, lines 4-6, replace the phrase "wherein generating the target region comprises applying an acidic composition to an area of the patient's skin, heating the area, or mechanically abrading the area" with the following phrase:  
--wherein generating the target region comprises applying an acidic composition to an area of the patient's skin and heating or mechanically abrading the area--.

The following is an examiner's statement of reasons for allowance: the prior art of record do not disclose, teach or suggest a method of treating skin condition of a patient, comprising the steps of: generating a target region on said skin; topically administering exogenous chromophore to the target region; and irradiating the selected/target region

with light having a wavelength of between 700 nm-1.2  $\mu$ m to inhibit sebum production within the target region; wherein the step of generating the target region comprises the step of applying an acidic composition to a selected skin surface, and in turn heating or mechanically abrading said selected skin surface as presently claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
